

Each box contains 6 patches, dexamethasone, and normal saline solution.

IontoPatch™ - Rx Only

Dose: Apply one patch to the treatment area every other day.

Quantity: 6 Patches

Days' Supply: 12

Delivery Vehicle: This is a self-contained wireless iontophoresis technology patch that is used to help with inflammation and pain.

Use: The ingredients contained in your custom prescription are commonly used for topical pain management of inflammation.

Do not use IontoPatch™ if you are pregnant or plan on becoming pregnant during treatment. Avoid drug contact with eyes, mouth, or mucous membranes. Do not use this medicine if you have had an allergic reaction to one of its ingredients.

This personalized prescription is being formulated to the exact specification that your doctor has ordered.

Active Pharmaceutical Ingredient Guide

ACTIVE INGREDIENT	STRENGTH	ACTION
Dexamethasone	4mg/mL	Anti-inflammatory.

How to Apply This Medicine

- Your doctor will tell you how often to use this medicine. **Do not use more than instructed by your doctor.**
 - Follow instructions on the label.
1. Fill the **positive side** of the patch with the provided **saline solution**, starting at the center of the pad and fill toward the outer edge leaving 3mm unfilled around the perimeter of the pad to keep liquid from contacting adhesive.
 2. Do not use entire contents of the saline vial.
 3. Fill the **negative side** of the patch with the provided **dexamethasone solution** following the same process as above.
 4. Position joint through midway through full range of motion to ensure the patch adheres correctly.
 5. Place the patch with the **negative side** over the site of pain.
 6. Secure the patch by running your finger around the perimeter of the patch.
 7. Wear for 4 hours or as instructed by your provider.
 8. Remove patch by thoroughly soaking with soap and water. Do not pull patch off while dry.
 9. Use moisturizing lotion following patch removal.

Effectiveness

Treatment and progress vary from patient to patient. Pain relief may come after one treatment, with peak results after completion of the treatment.

Call your doctor right away if you notice any of these side effects:

- **Allergic reaction:** Swelling in your face or hands, itching or hives, swelling or tingling in your mouth or throat, chest tightness, trouble breathing.
- Severe skin redness, skin peeling, or irritation.

IontoPatch™ was specially formulated to meet your individual needs. **Questions:** Please call 636-614-3152 or email at support@ebmmedical.com. Thank you!
